Re: 2002 Analytical Review DWCCA-3340-ELE

Dear Ms. Wilke:

The Public Service Commission (Commission) staff has completed its analytical review of your utility's 2002 annual report. The primary purpose of the analytical review is to detect possible reporting or accounting related errors and also to identify significant fluctuations from prior years' data that are not sufficiently explained in the annual report. The analytical review did identify the following issues:

1. On Page W-17, six 2-inch residential meters are reported. A warning requests an explanation of 2-inch or larger residential meters, but none was provided. Please furnish an explanation and follow this procedure in the

future.

2. With reference to page W-2, column C, it appears sales volumes have been rounded by a factor of 100. Please provide revised amounts for column C, and also note that the revised total will appear on page W-10, row 13, which result in substantially less water lost for the year.

Responding to the questions posed from the analytical review does not preclude you from possibly receiving other inquiries from our office regarding your annual report in the future: for instance, during a rate case, construction authorization, or other Commission reviews.

We appreciate your cooperation in providing the above information. If you have any questions, please feel free to contact me at (608) 266-3768. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is elaine.engelke@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,
